SUPPLIER DIVERSITY

LOCAL, SMALL & DIVERSE SUPPLIERS AND THE ENVIRONMENT

THE WORLD GAMES

Small, Diverse and Local Business Commitment

A key initiative for The World Games 2022 Birmingham Organizing Committee (TWG 2022) is the growth and development of our Supplier Diversity program—also known as the World of Opportunity (WOO). It is our goal to make every effort to engage and provide opportunities to the Small, Diverse and Local (SDL) businesses in Birmingham and its greater metropolitan area within a 75-mile radius of the city.

Our commitment to the City of Birmingham and our community is to seek to achieve a minimum of thirty-five percent (35%) of our collective available spend with SDL businesses. In that spirit, we expect our partners to join with us in our best efforts to intentionally plan, at the outset of their contract, to achieve these goals through their direct and tier 2—or sub-contractor—available spend.

The following is an outline of specific strategies we ask our partners to join to help achieve this effort:

- Contractors shall use **reasonable efforts, in partnership with TWG 2022 through the WOO, to source, utilize and pay SDL suppliers**, if applicable to providing their contracted goods and services to TWG 2022, in at least an amount equal to TWG 2022's minimum SDL supplier utilization goal of thirty-five percent (35%) of the total value of available spend.
- TWG 2022 asks that, **within 30 days of contract execution**, our awarded vendors provide a preliminary list of tier 2 and supplier goods and services needed to execute the contract for goods and services that could contribute toward our thirty-five percent (35%) utilization goal.
- **Where possible and applicable**, contractors will utilize our **Customer Vendor Management (CVM) database to search for local suppliers**
- Contractors will **partner with TWG 2022** and its primary vendors **in a job fair** aimed to allow said contractors the ability to recruit and hire employees to staff available opportunities for the duration of the 11-day event.
- Contractors will **participate in TWG 2022's vendor engagement fairs** (a separate initiative from the job fairs noted above) to build relationships with potential SDL suppliers.
- In order for the TWG 2022 to report our ongoing progress to achieve thirty-five percent (35%) SDL goal to the City of Birmingham, vendors must **submit a quarterly SDL spend report** through the CVM system. Vendors will need to attend a training class to obtain user credentials and learn how to submit the information through the CVM system.
